

**Sale Name:** Kero Checked Remaining

**LOT - 1 oz Silver Goldpanner Divisible Round**

### Description

The 1 oz Silver Goldpanner Divisible Round from Regency Mint offers both historical significance and practical investment features. Crafted from 1 Troy oz of .999 pure silver, this round showcases a gold panner on the obverse, symbolizing the rich history of gold prospecting. The reverse features a star design, ingeniously divided into four quadrants, allowing the round to be easily broken into four separate 1/4 oz pieces without compromising purity. This divisibility enhances liquidity and provides flexibility for investors and collectors alike. Each round is shipped in protective plastic packaging to ensure its pristine condition upon arrival.

Please note that you will need a tool to divide these rounds. The grooves make it easy to divide them equally.
